What is Billion Happiness?

Billion Happiness is a blockchain community-based project, that introduces Blockchain to billions of people through simple needs including clothes or wearables, crypto essentials like hardware wallets, and interests and passion including digital artworks.

It is committed to providing Happiness by rewarding its community through its token called BHC & HPS. The rewards can be earned from every transaction on its NFT Marketplace. Its further development led its way to the DeFi world. Making the token farmable, stake-able, and tradable on various exchanges.

BHC Tokenomics

The new tokenomics contain a total supply of 50,000 BHC, of which 66.6% was used to allocate BHC v1 users their new v2 tokens. As for the remaining 33.4% of the supply (16,723 BHC), it has been utilized as follows:

Allocation Amount Parentage (September 14, 2020 - July 27, 2021)

BHC Staking - 5000.00 - 29.9%

BHC/BNB Rewards - 5000.00 - 29.9%

HyperSwap (Thugs) - 5000.00 - 29.9%

JetFuel - 1000.00 - 6%

Marketing/Giveaways - 723.00 - 4.3%

Since July 28, 2021, BHC has been in full circulation.

What is HPS?

HPS Token

HPS is a booster token for the Billion Happiness project to support, build an ecosystem, and Develop the NFT marketplace.

To create, trade, or collect digital items secured with BSC blockchain.

On top of its features, making it a complete NFT marketplace on the BSC, the marketplace has its own token, Happiness Token (HPS). HPS's primary purpose is to be used as a Billion Happiness project booster. Currently, HPS will be integrated into the NFT marketplace, allowing artists to pay listing fees in HPS or BNB.

If users pay fees in HPS:

- 50% of fees will be burned
- 50% of fees will be allocated to Billion Happiness

If users pay fees in BNB:

- 50% of fees used in BHC buy back and redistributed to the BHC Maxi Pool
- 50% of fees will be allocated to Billion Happiness
